PEONIES

We are growers of Peonies strictly for root production. We do not market our flowers. Therefore, when you purchase your Peony roots from us, they contain the full amount of vitality. This is very important for your future success. Our plants are very carefully grown and all roots shipped are of first class quality. Please note our reasonable prices. For best results, make your planting from the first of September on.

HEMEROCALLIS

Lemon Lily

The varieties we offer here will make a grand show from early May through the month of August. Extreme hardiness in any section of the country and good lasting quality when cut adapts them both to mass plantings in the garden and to use in floral arrangements. Substantial reductions in price now permit their use on a much larger scale. If you would see a great show in good season next year, we recommend planting our Hemerocallis from the first of August on.
